

PROJECT ENGINEER

AVK HOLDING

Reporting to the Project Manager in AVK Holding Project department, we are looking for a dedicated project engineer, who with creativity, structure, and enthusiasm, can drive and implement production and warehouse optimisation projects at existing and new factory facilities worldwide in close collaboration with the local colleagues.

The project department belongs to the AVK Supply Chain function, and today consists of a team of three key employees. The department mainly services AVK's production and storage units worldwide.

Your primary tasks

Through a structured process and in close collaboration with the project department and the local entity, you will be responsible for developing and implementing solutions at AVK's wide range of global companies.

This involves generating ideas on layout and function, developing solutions and handling project management to ensure a coordinated development of production platforms in the local entity. Examples of projects could be definition and optimisation of existing production flows, automation projects, setup and handover of new sites and expansion of existing ones.

The projects are usually handled from the idea phase to commissioning and handover at the local company. Therefore, there will be periods of you can expect travel activity, expected 20-30 annual travel days, and you will be working across different organisations and cultures daily.

Your background

You are a skilled production engineer or have a similar technical education at bachelor's level and

minimum have three years of experience with similar tasks – ideally from a product-manufacturing company in the iron and metal area.

You master and use English in writing and speaking. You have knowledge of AutoCAD or similar CAD software that enables you to produce principal drawings on idea proposals as well as layouts to be developed.

Your personality

- You thrive in a project-oriented organisation with a broad range of activities.
- You are persistent and structured.
- You work well under pressure and maintain a good overview of several projects.
- You handle multiple tasks in parallel without compromising on quality.
- You are outgoing and energetic.
- You appreciate a relaxed tone of voice and casual working environment.

Application

If you would like to hear more about the job, you are welcome to contact Project Manager, Mads Vallentin by phone +45 6177 3417 or by e-mail madval@avk.dk

You must also send your application as soon as possible to the above e-mail or at the address; AVK Holding A/S, Søndergade 34, 8464 Galten. We conduct interviews on a running basis.

About AVK

AVK's core business area is the development and production of valves, hydrants and accessories.

Our products are part of vital infrastructure for clean drinking water, safe distribution of natural gas, efficient wastewater management from households and industry, and fire protection.

The AVK Group is family-owned with headquarters in Galten, Denmark.

With a turnover of DKK 9,0 billion in 2024 and more than 5,000 employees at 100+ production and sales companies worldwide, AVK is a very significant player in our industry.

AVK wants to be a responsible and trustworthy company balancing economic, environmental and social conditions. Sustainable initiatives are fundamental in our production and we have a healthy and safe working environment.
